### ▲ EUROPE : Premier prêt dans le cadre du programme européen SAFE, finalisé avec la Pologne.

Varsovie a officialisé un emprunt de 44 milliards d'euros auprès de la Commission européenne pour financer sa défense

«La Pologne est véritablement un chef de file en Europe en matière de défense. [...] Aujourd'hui, nous avons besoin d'une défense commune et nous devons produire beaucoup plus d'équipements de défense», a commenté M. Kubilius. Ces 43,7 milliards d'euros de prêts serviront à financer pas moins de 120 programmes, dont 40 devraient faire l'objet d'un contrat d'ici la fin du mois de mai, selon le général Artur Kuptel, le directeur de l'agence polonaise de l'armement.

The SAFE agreement signed. This is a great moment for the whole community working towards peace

The Polish SAFE programme serves three purposes: increasing the combat potential and deterrence capability of the Polish Armed Forces, supporting national defence industry and strengthening internal security. [...] The priority of the programme is the support for the Polish defence industry. The vast majority of orders will go directly to local production plants. 11 981 entities across the country are involved in the programme. « This is an extraordinary day, this is how history is written. Today we are changing the history of Poland the history of the European Union. SAFE is first and foremost a relay. It all began with the Prime Minister's idea, then the Polish presidency and concrete decisions. (...) Today we are only finishing one of the stages. The agreement is signed. The money is available. Not virtual, but real. The money is there. Now the greatest role goes to the Armament Agency, general Kuptel. This is the time for you to enter the fray. 40 contracts will be signed by the end of May. Magdalena Sobkowiak-Czarnecka, the Government Representative for the Security Action for Europe Instrument, noted. «[...] It will be to give the appropriate level of deterrence for the glory of our great nation, but also for the security of the eastern flank of the North Atlantic Alliance and the European Union. noted the Chief of General Staff, general Wiesław Kukuła, who took part in the ceremony of signing the SAFE agreement

La Pologne sécurise un prêt record de 43,7 milliards d'euros pour sa défense

Pays le plus peuplé du flanc oriental de l'Otan, la Pologne consacre déjà 4,8 % de son produit intérieur brut à la défense, soit la part la plus élevée de l'Alliance atlantique. Créé en 2025, le mécanisme européen Security Action For Europe (SAFE) prévoit une enveloppe globale de 150 milliards d'euros sous forme de prêts préférentiels. Le dispositif vise à financer des projets communs liés à la défense, notamment l'achat d'armes et de munitions, ainsi que le développement d'infrastructures critiques.

Poland becomes first nation to sign EU SAFE loans, expects billions for defense

After a politically turbulent process, Poland has become the first country to sign the EU's Security Action for Europe (SAFE) instrument agreements, clearing the way for Warsaw to begin receiving €43.7 billion (\$51.6 billion) in defense funding by the end of the month. The signing occurred Friday in the presence of a group of key leaders from both the EU and Poland, underlining the importance of the event, which Polish Prime Minister Donald Tusk described as a "special moment" that reflects a "turning point in the history of both Poland and the European Union."

### ▲ AMÉRIQUES : Publication de la Stratégie nationale du contre-terrorisme des Etats-Unis d'Amérique

United States Counterterrorism Strategy 2026

The strategy serves as a guideline for how U.S. security agencies allocate resources and coordinate efforts to combat the country's primary national security threats. Unlike previous years, the 2026 strategy is expected to have a direct impact on Mexico and organizations designated as Foreign Terrorist Organizations (FTOs) and Specially Designated Global Terrorists (SDGTs), particularly in matters related to Weapons of Mass Destruction (WMDs), a category that now includes fentanyl production and trafficking as major national security concerns.

Date de publication : 09/05/2026

White House Releases 2026 Counterterrorism Strategy With Focus on Cartels, Iran, and Domestic Extremism

One of the strategy's most notable additions is its focus on domestic extremist threats. The document says the administration will prioritize identifying and disrupting "violent secular political groups" described as "anti-American," "radically pro-transgender," and anarchist. It also references Antifa and states the government plans to use "all the tools constitutionally available" to map networks and identify members linked to violent activity.

United States Counterterrorism Strategy

At the same time, my Administration has put an unprecedented focus on dismantling threats to the American homeland in our Hemisphere. We are no longer permitting the cartels and gangs who have poisoned millions of Americans to freely operate in our region or smuggle their drugs, guns, or trafficked women and children into our country.

### ▲ EURASIE : Nomination d'un nouveau commandant en chef des Forces aérospatiales russes

Putin Replaces Aerospace Commander With EU-Sanctioned General Amid Drone Surge, Reports Say

President Vladimir Putin has reportedly dismissed the head of Russia's Aerospace Forces, the military branch responsible for the country's air defenses, coming after a series of highly destructive Ukrainian drone attacks... If confirmed, the leadership change would follow a significant uptick in Ukrainian drone attacks over the past two months that have targeted Russian energy infrastructure. Chaiko is a veteran commander who led Russian forces in Syria from 2019 to 2021, RBC wrote. In 2020, Putin reportedly awarded him the Hero of Russia medal through a classified decree. The EU sanctioned Chaiko in March after accusing him of serving as a lead commander during the Russian occupation of Bucha.

<https://www.themoscowtimes.com/2026/05/04/putin-replaces-aerospace-commander-with-eu-sanctioned-general-amid-drone-surge-reports-say-a92675>

Date de publication : 05/05/2026

### Russian Aerospace Forces reportedly get new commander

Colonel-General Aleksandr Chaiko has been appointed commander of Russia's Aerospace Forces (VKS), according to Russian media reports on May 4... Russia's Aerospace Forces comprise the Russian Air Force, Air and Missile Defense Forces, and Space Forces... Chaiko, 54, is succeeding Colonel-General Viktor Afzalov. The latter was appointed in August 2023 to replace General Sergei Surovikin, who also briefly served as overall commander and then deputy commander of Russian forces in Ukraine but was relieved and exiled to a posting in Algeria following the mutiny by the PMC Wagner, the Russian state-funded private military company. This latest shake-up atop the VKS follows a leadership change in the Russian Ground Forces last year... Russian media outlets have not offered any reason for the change in VKS leadership. It could be that Moscow is displeased with the service's performance in protecting the rear from Ukrainian strikes.

Date de publication : 04/05/2026

### Putin appoints general implicated in Bucha massacre commander of Russia's Air Force, media reports

Russian president Vladimir Putin has appointed Aleksandr Chaiko, a general implicated in the 2022 massacre of Ukrainian civilians in Bucha, as commander of the country's Air and Space Forces, Russian media reported on May 4. Fifty-four-year-old Chaiko, who is also a deputy head of Russia's General Staff, will replace Viktor Afzalov, who had held the Air Force post since December 2023, Russian newspaper RBC reported, citing unnamed sources in the military... In September 2022, the Security Service of Ukraine filed an indictment against Chaiko for his role in the offensive on Kyiv... The general had also served as commander of Russia's troop contingent in Syria, both before and after the full-scale invasion. According to an investigation by Human Rights Watch, Chaiko was directly involved in deadly strikes against civilian targets around Idlib in 2019. The change of commander comes as Russia's air force, despite its massive advantage in numbers and firepower, has failed for five years to achieve air superiority in Ukraine, whose innovative deep strike and interceptor drone programs have stymied the activity of conventional air power.

## ▲ ASIE — OCÉANIE : Rencontre entre Xi Jinping et Donald Trump à Pékin

What did the Trump-Xi Summit Achieve?

I think going into this summit there was quite a lot of focus on the economic piece of the U.S.-China relationship. Some hope, perhaps, that some big deals might get announced, we might have some breakthroughs... So we don't have an official fact sheet yet or a statement from the U.S. side, and certainly nothing yet from the Chinese side... I didn't see any indication that China was willing to reduce its military activities, in particular. What we did see when KMT Chairperson Cheng Li-wun went to China, and after she came back to Taiwan, was more carrots that the Chinese were willing to provide on the economic side, as well as dangling of potential opportunities for Taiwan businesses... Xi is on record as calling for the Straits of Hormuz to be reopened publicly, so telling that to the president seems completely consistent... he's going to be consistent with what he said before, which is in China's interest. China's always taken the position that they oppose Iran having nuclear weapons. So I think the significance is the Chinese don't want to play that up.

Date de publication : 15/05/2026

### Donald Trump à Pékin : les gains sont pour la Chine, Taïwan dans le viseur

La visite d'État éclair de deux jours de Donald Trump en Chine a permis à son hôte Xi Jinping d'engranger deux avantages clés pour l'avenir : imposer un processus de dialogue d'égal à égal entre la Chine et les États-Unis et enclencher un processus vraisemblablement irrémédiable contraignant l'Amérique à réduire son soutien et son aide militaire à Taïwan... Un tournant dans l'escalade progressive de la Chine dans son ambition de s'emparer coûte que coûte de cette île démocratique de 23,5 millions d'habitants dont la population n'a, dans sa très grande majorité, aucune envie d'une « réunification » avec le continent chinois dominé par un régime totalitaire... Xi Jinping en est convaincu, les États-Unis sont entrés dans un cycle de déclin irréversible tandis que la Chine est restée quant à elle, et pour longtemps, dans une phase de développement rapide... Du même coup, le Japon, la Corée du Sud et les Philippines se trouveraient plus isolés que jamais face à la Chine qui est de plus déjà engagée depuis des années dans la militarisation à outrance de la mer de Chine méridionale.

### Xi-Trump meeting fruitful as US leader wraps up China visit

During Trump's visit, the two leaders agreed to build a new vision of building a constructive China-US relationship of strategic stability, reached consensus on major bilateral and global issues, and engaged in warm interactions on multiple occasions... The visit is conducive to enhancing mutual understanding, deepening mutual trust and improving the well-being of the two peoples, said the Chinese president... Regarding the Ukraine crisis, Wang Yi stated that both China and the United States are willing to maintain communication over the Ukraine crisis and play a constructive role in working for its political settlement... As the world's two most important major powers, the peace, stability, and practical cooperation between China and the US profoundly influence the global strategic landscape, world economic development, and the prosperity and stability of the international community, said Wu.

Date de publication : 15/05/2026

### Xi warns Trump on Taiwan during high-stakes summit

China's President Xi Jinping warned U.S. President Donald Trump on Thursday that mishandling the countries' disagreements over Taiwan could push China-U.S. relations to a "dangerous place," as the two leaders met for a closely watched summit. Xi's remarks on Taiwan, the democratically governed island claimed by Beijing, came in a closed-door meeting of the leaders of the world's two largest economies... Taiwan has long been a flashpoint in the U.S.-China relationship, with Beijing refusing to rule out the use of military force to gain control of the island and the United States bound by law to provide Taipei with the means to defend itself... Analysts doubt Xi will be willing to push Tehran hard or end support for its military, given Iran's value to Beijing as a strategic counterweight to the United States.

## ▲ AFRIQUE : Sommet « Africa Forward » à Nairobi co-organisé par le Kenya et la France

Après Nairobi, Emmanuel Macron prépare son ultime tournée africaine

« Le président français et ses équipes planchent sur sa prochaine visite d'envergure sur le continent, qui pourrait bien s'avérer être la dernière de son double quinquennat. » « Trois pays ouest-africains sont pour l'heure concernés, le Nigeria, la Côte d'Ivoire et le Sénégal. » « [...] ce déplacement vise à renforcer le partenariat entre Paris et Dakar, chahuté ces dernières années par la rétrocession des bases militaires tricolores du pays. » « L'Élysée espère notamment obtenir des avancées sur le renouvellement des accords de défense entre les deux pays, pour l'heure suspendu à une décision de l'exécutif sénégalais. » « En délicatesse au Sahel, la diplomatie française souhaite maintenir son assise dans les pays côtiers du golfe de Guinée, où la crainte d'une contagion djihadiste demeure très prégnante dans les palais présidentiels. » « Alors que le sommet de Nairobi a largement été présenté comme un point de bascule vers l'Afrique anglophone, il doit aussi permettre de réaffirmer le partenariat de Paris avec l'Afrique francophone »

Macron seeks allies and a foreign policy less tied to France's colonial past at Africa summit

“Since 2022, France has been forced to withdraw its troops from countries including Mali, Niger and Chad.” “Coups in the region have been underpinned by anti-France sentiment, with Paris being accused of neocolonialism and of trying to influence military and other affairs.” “[...] France was trying to move ‘beyond its old francophone comfort zone [...] after losing ground in its traditional sphere of influence’.” “Named Africa Forward, it is being seen by analysts as an attempt by France to court new allies.” “The leaders joined representatives of the African Union, financial institutions and the development sector to discuss themes including energy transition, peace and security [...]”

A Nairobi, Emmanuel Macron clôt une décennie de tempêtes dans les relations entre la France et l'Afrique

« Arrivé au pouvoir en promettant de refonder la relation entre la France et ses anciennes colonies, Emmanuel Macron a dû affronter une succession de crises, en particulier au Sahel. » « Dans la partie anglophone du continent, Paris peine à se faire une place. » « Là, Paris veut diversifier ses partenariats et engranger des gains commerciaux. » « Le temps où la France avait le monopole dans son ancien pré carré et où elle décidait est terminé. » « Soixante ans plus tard, la France continue à chercher le sien en Afrique. »

## ▲ MOYEN-ORIENT : La Turquie expose les progrès de son industrie de défense lors du salon SAHA 2026.

Turkish defense makers showcase new-generation systems at SAHA 2026

Türkiye opened one of Europe's largest defense and aerospace exhibitions on Tuesday, showcasing a new generation of

domestically developed weapons systems as officials pointed to growing regional conflicts and shifting security threats as a driver behind the country's expanding military industry. The six-day SAHA 2026 International Defense, Aerospace and Space Industry Fair, organized by SAHA Istanbul, brought together more than 1,700 companies from over 120 countries at the Istanbul Expo Center, according to organizers. [...] “Until the 1980s, our country was largely dependent on foreign suppliers in defense industries,” Güler said. “Today, thanks to determined policies and strategic investments, Türkiye designs, produces and exports its own systems.”

La Turquie a l'intention de développer un missile balistique intercontinental

Son développement étant visiblement bien avancé, le Tayfun Block 4 a officiellement été dévoilé par Roketsan à l'occasion du salon de l'armement SAHA 26, qui se tient actuellement à Istanbul. Monté sur un tracteur-érecteur-lanceur [TEL] basé sur le Derman 8x8 de Koluman, le Tayfun Block 4 est plus imposant que son prédécesseur, avec une masse de 7 tonnes et une longueur de 10 mètres. Sa portée serait comprise entre 1 000 et 1 500 km. Mais la Turquie a une autre ambition : celle de développer le Yıldırımhan, un missile balistique intercontinental [ICBM], c'est-à-dire ayant une portée supérieure à 5 500 km. Également dévoilé lors du salon SAHA 26, ce programme est mené par le Centre de recherche et de développement du ministère turc de la Défense.

Turkey rolls out intercontinental missile with purported 6,000-km range

The Turkish Ministry of Defense took the opportunity at the SAHA defense expo to reveal a new intercontinental missile with the a reported range of 6,000km (approximately 3,700 miles). [...]“Given the emphasis on defense modernization, it is likely that progress has been prioritized,” Bakir, defense analyst and professor at Qatar University, told Breaking Defense. “Furthermore, the actual capabilities of the missile may exceed the publicly disclosed parameters, suggesting that Türkiye is advancing rapidly in its missile technology.” Bakir said the ICBM would add a “crucial layer of deterrence” to Turkey's military arsenal. The timing of the announcement was also no coincidence, he said. “[It] serves as a clear message to potential adversaries that Türkiye is prepared to defend its sovereignty and interests.” [...] In a ceremony attended by the minister of defense on Tuesday, national missile manufacturer Roketsan also unveiled four new missiles.
